

SPEECHMIKE Classic
DIGITAL**6264**

THE PC-DICTATION SOLUTION FOR PROFESSIONALS

Philips SpeechMike Classic 6264

The SpeechMike Classic is a powerful dictation tool with the familiar 4-Position Switch. This allows easy single-handed operation and makes migration simple for analog dictation users. The 6264 comes with programmable control buttons that can be customized to meet your needs, plus a high quality microphone and speaker offering true fidelity sound – all in one ergonomically-designed unit that fits neatly in your hand.
