

SPEECHMIKE PRO
DIGITAL**6274**

A REVOLUTION IN THE PALM OF YOUR HAND

Philips SpeechMike Pro 6274

SpeechMike Pro 6274 is unique – the PC-user can easily input voice data and work into PC Windows® applications using a single device in the palm of one hand. The combination of a professional dictation microphone, a loudspeaker and a trackball mouse in an ergonomic casing means that SpeechMike Pro 6274 offers the functionality of a dictation unit plus the ability to navigate and control Windows® PC applications.
